
act [Activity Diagram1]
Claim Handler
Senior Assessor
Automated
Claims Manager
Claim registered
Create "Verify policy" (due 2 days) and "Reject claim" (needs Senior Assessor)
Both tasks are created together and assigned to the lowest level (Claims Handler). The first one to finish decides the path. The other one is cancelled.
[Verify policy finished first]
[Approval Request for "Reject claim"]
Status = Verified
Cancel "Reject claim"
Claims Handler request approval
Accept and complete "Reject claim"
Cancel "Verify policy"
Status Rejected
Subtasks are assigned to Claims Handler first. Each one needs Senior Assessor, so each is requested and accepted before it can be done.
Create "Assess damage" composite (due 3 days)
Claims Handler requests approval for "Inspect vehicle" and "Estimate repair cost"
Accept both subtasks
Complete "Inspect vehicle"
Complete "Estimate repair cost"
Status = Assessed
Assess damage is complete only when both subtasks are complete
[fraudFlag != yes]
[fraudFlag = yes]
Accept and complete "Review claim"
Status = Approved
Auto fraud check runs
Cancel "Review claim"
Status = Under Investigation
Create "Clear claim" (due 5 days) and "Reject claim" (due 5 days)
[Clear claim finish first]
[Reject claim finished first]
Cancel "Reject claim"
Status = Approved
Cancel "Clear claim"
Status = Rejected
Create "Pay claim" (due 5 days)
Accept and complete "Pay claim"
Status = Paid
